GRANGEBURN FIELD DAY & ONLINE SALE 2023

ON-PROPERTY AT "BLACK STUMP"
2030 GLENELG HIGHWAY WANNON VIC

OFFERING:

14 SIMMENTAL AND SIMANGUS SIRES

7 SIMMENTAL HEIFERS

1 ELITE EMBRYO PACKAGE

3 SEMEN PACKAGES

PLEASE NOTE: ONLINE AUCTION WILL RUN FROM 9AM AND WILL CLOSE AT 6PM (OR UNTIL BIDDING CEASES ONLINE) ON FRIDAY 3RD OF FEBRUARY 2023.
INSPECTION CAN TAKE PLACE ON THE DAY OR IN THE LEAD UP BY APPOINTMENT WITH BRODHI
0418723996.

WELCOME

Weather is probably the first thing that is front of mind at this time, with huge deluges across the country it has been a difficult time to finish lambs, cure hay/silage, wean calves and of course prepare bulls and heifers in the lead up to our 2023 offering. This should hold the soil moisture in good stead going forward into 2023 and beyond, one would hope we can fill sheds and let us fill dams for seasons to come.

February 2023 will see us again offer half a dozen heifers, this time from our fresh group of weaner heifers with genetic diversity aplenty, with 6 sires represented in the 7 heifers alone. Our bull team this year again represents only the best of

what we have to offer with ET, AI and natural bull calves making the cut to represent Grangeburn in the sale. The sale will be held online after our success going online with the inaugural sale in 2022. We'd like to sincerely thank those who purchased or were underbidders in that inaugural sale. Videos and pictures will again be available online with AuctionsPlus and inspections welcomed anytime.

With the Grangeburn cattle now branching into many regions of Australia I will endeavour to maintain contact with all of you, but I look forward to seeing those can attend our sale day in 2023!

AuctionsPlus

How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select "**Sign Up**" in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select "**Dashboard**" and then select "**Request Approval to Buy**".

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

Email: info@auctionsplus.com.au

SALE INFORMATION

Inspection: Cattle may be inspected any time prior to the sale day, by arrangement. If you can't make it on sale day, we encourage you to inspect the bulls at a time convenient to you by contacting Brodhi directly on 0418 723 996.

Auction: Held online only through AuctionsPlus, the auction will open at 9am on 3rd of February before closing at 6pm – extended only by further bids. A 2% agent rebate is offered for those introducing their client in writing at least 24 hours prior to sale commencement and are attendance with their client on the day.

COVIDSAFE: CovidSafe plans will be in place, please check in on arrival and maintain social distancing where required.

Delivery: This year we are offering freight assistance up to 300km from 2030 Glenelg Highway in any direction.

Field Day Safety: We pride ourselves on the excellent temperament of our cattle, however, there are risks associated with natural bull behaviour. Entering yards is done so at your own risk. We take all precautions to keep you safe by providing secure yards and prohibiting children from entering yards.

Breeding Soundness: All sale bulls offered for sale have passed a semen motility and morphology test by Drew Pickford, Nationwide Artificial Breeders. All bulls offered for sale have been examined by Nationwide Artificial Breeders for penile and testicular soundness also. The certificates for these inspections are available for each bull.

Supplementary Sheet: The bulls have scan data supplied by BREEDPLAN certified scanning technician, Max Bowman, for Eye Muscle Area, Rump & Rib Fat, Marbling (IMF%) and will also have Weight and Scrotal Size Measurements provided.

Guarantee: All stock are guaranteed breeders. Any claim against the breeding ability of an animal purchased should be made in writing and accompanied by a Veterinary Certificate within six months of the date of sale. In the event of a bull failing to breed, it may either be replaced with an animal of comparable value or credit to the full purchase price will be given on a private sale animal. We will guarantee structural integrity of our cattle for up to 12 months from purchase date.

Health: We maintain a J-BAS 7 score so livestock are free to move anywhere in Australia. All sale animals pesti-tested negative.

All bulls have been vaccinated twice with Ultravac 7-in-1, Pestigard, Botulinum, 3 Germ (once), BEF and Vibrovax.

Unjoined heifers received Ultravac 7-in-1, BEF, Pestigard and Botulinum.

Refreshments: Cool refreshments will be provided on the day, along with snacks in COVIDSafe packaging.

Sale Bulls: Our bulls have been prepared on pasture for the majority of their life, with a silage and grain based pellet given through tough times where grass was sparse, so that they remain structurally and reproductively sound. Due to less grain, sale weights of our bulls may be slightly less than bulls at other sales.

Retained Semen Shares: Grangeburn retains the right to collect semen from any bull sold through the auction at our expense. Semen on a limited number of bulls has already been done.

Performance Data: We have been using raw data and Breedplan information to measure the genetic improvement in our cattle. Aiming for progeny with good growth, combined with the right maturity pattern and an ability to finish easily off available nutrition.

Visitors: We welcome visitors to our property anytime to see how Grangeburn's program has advanced. We think you'll find that our cows are productive and up to the task of producing the next generation weaner calves, replacement heifers or even some sale bulls of your own.

BULL MANAGEMENT

To give you an overview of how, and what your new bull has gone through to get to this stage I thought I'd give you a run-down of his life at Grangeburn. Our main calving period begins late in March through to May. Where calves are weighed at birth and tagged with two tags for identification, the calf is also given a score from 1-5 as to its calving ease.

The calves go through two rounds of assessment as they come through the yards for each of their Ultravac 7 in 1 doses, at roughly 6 and 10 weeks of age. At these points we castrate the bottom 50% of bull calves to maintain quality. Calves are weighed at 200 days old for growth EBV's and their dams are weighed for mature cow weight EBV's at this point.

Calves are weaned at 5-7 months dependent on the season, where they have DNA sampled for parent verification and Pestivirus testing to rule out PI. They also receive mineral and vitamin supplements, a Piligard vaccination and are drenched before yard weaning for 3 days. The calves often are licking our hands once those three days are up. They then venture out onto pasture and silage, until the bulls receive a mixed ration prior to our sale day one year later.

All cattle in the herd are Pestivirus PI negative and are vaccinated annually with Pestigard, as well as Ultravac 7 in 1. Bulls only are vaccinated with Vibriovax, Botulinum, BEF and 3 Germ so they will have the ability to resist disease in any environment.

All bulls are examined externally for scrotal and penile abnormalities prior to sale day. They also have a crush side semen

evaluation completed and have passed this, plus morphology in the laboratory.

Cattle Management: Going forward we recommend that all cattle purchased from Grangeburn be given at a minimum Pestigard and Ultravac 7 in 1 vaccination annually, prior to joining. Bulls should also receive a Vibriovax vaccination annually.

When bulls leave Grangeburn they're leaving home for the first time and will arrive in unfamiliar surroundings at your property. Please ensure that when the bull is unloaded that he has company in a cow or steer, if he can't be put with the bull mob right away, in a large paddock. Being the youngest of a group your young bull will be at the bottom of the pecking order, so care must be taken to ensure adequate feed and water sources are available for the young developing bull.

Our bulls are used to being handled with utes and 4x4 motorbikes, and SxS UTV. Keep this in mind when handling your new Grangeburn bull at home.

Under good management a rising two year old bull should be capable of serving 40 cows on his own, an older bull can handle more. However, if cows are synchronised for AI those that return as not pregnant to AI could wear your bull out if he has not got sufficient back up.

It is important to observe your bull at the beginning of mating to ensure there is no injury or disease preventing successful service of cows. Most injuries will occur in the first days to weeks of joining. Check him regularly to ensure he is not lame, nor injured. Plus, he likes it when you check him out!

Statesman has been a favourite literally since birth for a couple of reasons, his striking colour pattern and sheer power and length make this bull a commercial proposition you cannot miss. His extra length is a welcome addition in a bull with so much grunt and power, plenty of extra premium cuts in the progeny of Statesman. Absolute chiller would describe his temperament and standing on great feet and legs, a really elite son of a slick skinned Tornado daughter who always weans a heavy one! It's only his colour that stops him entering stud duties at home!

LOT 2 – Grangeburn Secret Weapon (P) (ET)

ZEUPS030 – HETERO POLLED - 100/100 – BORN 11/4/21

Another absolute cracker jack bull that I should not be selling, should not. Stud sire written all over him with impeccable foot structure and unmet power in the group. He has probably the largest middle of any bull we've ever produced, directly inherited from his donor dam JB CDN Annifried. His full flush brother was due to be retained however a fight amongst the group resulted in a leg fracture which was unsalvageable. We've committed to selling the best, here he is. Semen to be retained for in herd use only.

Avg	+2.7	+0.6	+20	+37	+46	+0.5	+0.2	+2.5	+8	+0.4

You want to stamp those calves with pigment and dark dark red coats, then this is your bull. He'll also remove any horns from your herd and add a lot of length to his progeny! Out of a really smart cow who produces a good one every year. Another bull with a good temperament thanks to his father Apache Junction who stamps them all with beautiful temperaments.

LOT 4 – Grangeburn Sambuca (P) (AI)

ZEUPS014 – HETERO POLLED – 100/100 – BORN 25/3/21

A really good black bull with high growth out of a first-calving heifer. Add some punch into your black herds or use him on red cows to create red or black calves – a flexible option.

Livestock insurance that fits

Insure our way,
the local way.

In the livestock business, we understand it takes years to breed and produce your stock, which is why it pays to make sure you're protected if the unexpected occurs. Elders Insurance offers a wide range of risk protection options in one policy to cover any livestock enterprise you may be involved in. As we all know, there is always an inherent risk when transporting livestock but many of us forget about the risks while they are in the paddock. With every season and area being different it is important to consider all of the potential risks to your livestock and ensure you have suitable cover in advance for unforeseen circumstances involving your valuable livestock assets.

Contact Damian Carracher for a personalised quote.

Avg	+2.7	+0.6	+20	+37	+46	+0.5	+0.2	+2.5	+8	+0.4

Mona Lisa cow family is rarely made available to Australia, never mind the world Simmental community. T81 is by our top-priced Rhinestone who sold in our 2022 online sale. Don't overlook her, she's just a baby from a great uddered first-calver.

LOT 20 - Grangeburn Repertoire T93 (P)

ZEUPT093 - POLLED - 100/0 - BORN 29/5/22

 Champs Bravo
Grangeburn Masters Pride
 Woonallee Regsl K13
 Woonallee Gilchrest
Six Creeks Zena K16
 Six Creeks Zonny

	CE DIR	BW	200WT	400WT	600WT	RIB	RUMP	EMA	MILK	RBV

Avg	+2.7	+0.6	+20	+37	+46	+0.5	+0.2	+2.5	+8	+0.4

Another daughter of Masters Pride with natural softness. Her dam is still in the herd at 11 years old as was her grandmother. If you want a heifer that'll breed into double figures then she might just be the right fit. She's only a baby, don't overlook her.

LOT 22 - Kerrah E307 Embryo Package

↳ Woonallee Flame
Grangeburn Onyx M37
 ↳ Upper Wingan Diamond
 ↳ Woonallee Tornado
Woonallee Regal K13
 ↳ Woonallee Regal E21

Some elite traditional genetics on offer here, all embryos are sired by Kerrah E307 (above) who's sons have sold exceptionally well at Woonallee. Access his genetics here through two of our lead donor cows in K13 and M37. Package consists of 4 embryos, 2 from each mating. Shipping costs responsibility of purchaser.

LOT 23 - Wormbete Samurai S47 (10 STRAWS)

We purchased Samurai in September for \$25k at the recent Wormbete Simmentals sale. He's a slick skinned calf with sire appeal, neck extension, bone, with an extra rib in length. If you're after a homo black, homo poll option with added dimension then look on here.

Selling one package of 10 straws with the option to purchase 10 more at the same price.

LOT 24 - JB CDN Captain Call (10 STRAWS)

Captain Call has produced an incredible first crop of calves for us here in the 2022 autumn drop group. He'll put pigment on absolutely everything and solidify any hint of white on a coat of the dam.

His calves are slick skinned and have added scale and growth. We look forward to how they develop.

Selling one package of 10 straws with the option to purchase a further 10 if the successful purchaser would like.

LOT 25 - Wormbete Sampson S99 (10 STRAWS)

We purchased Sampson in September for \$22k at the recent Wormbete Simmentals sale. He's a calf with sire appeal, bone, power and softness on a faultless structure. He's the type of bull you could use on any cow in the herd.

Selling one package of 10 straws with the option to purchase 10 more at the same price.
